As this is my first presidents report I would like to start by congratulating our former president Scott Dargan on an amazing job over the last three years in the role. Of course, Scott was a key club member before that; as a committee member and Editor of the “The Fly Fisher” club magazine, and as Vice President. Scott has provided inspiring leadership and has ensured the club remains strong whilst building a great camaraderie amongst the membership. I hope to continue the tradition of leading a club that provides a variety of experiences for its members in our chosen pursuit with a fly rod in all its many forms; whether it’s in a lake, the sea, a river somewhere, or a casting competition.

But it is more than that. Just read the back cover of The Flyer Fisher and note the membership benefits and you can see that being a member of this great club provides much more. And then of course, we have our library where you could spend years just learning all there is to know, or just enjoy reading a good book or sit down to a video. But, one of the truly great benefits of being a member of this club is the countless opportunities to fish with people who have learnt their craft, mastered their technique and have a keen willingness to pass on their skill to others, whether it be how to catch a fish, tie a fly, or hone your precision at casting in the casting pool.

At the annual general meeting, it was also a fantastic opportunity to see the recognition of some outstanding club members. The President’s award went to Colin McMillan for his significant contribution to the club. His work assisting Scott with the preparations of the 50<sup>th</sup> Anniversary filming and interviewing of the legends of the club was impressive. Les Pratt won the John Worrell Award. Les has performed the role of Treasurer over the last few years and conducted himself admirably and is just a genuinely decent guy and highly regarded member of the club. No doubt these qualities inspired John in his wise choice. One of Scott’s final roles as president was granting Life Membership to former President, Tony Hyatt, who was obviously genuinely surprised but well deserving of the award. In my 10 years at the club, he has been arguably more involved in everything the club does than anyone.

Yes, the club is in good shape and we now move into the next 50 years. It is difficult to imagine what it will look like in another 50 years’ time. We don’t think change happens all that quickly, but think back to 1967 (if you were born – I was five), we hadn’t landed on the moon yet. We still had black and white TV. You, or your parents, may have had a telephone in the house; possibly had a Super 8 camera to capture memories, but couldn’t contemplate a video camera, VHS recorder, or compact disc, DVDs or memory sticks, and seat belts were an optional extra in some of the newer cars. How many people had a boat? What is important is that no matter what changes will bestow us in the future, that we continue to enjoy the wonderful magnificence of the great outdoors in this glorious part of the world and enjoy the many opportunities to going fishin’.

Hope you enjoy reading this edition of The Fly Fisher. There are lots of activities to see out the year and the opening of the rivers is almost upon us. With a bumper snow drop this August, there will be plenty of cold water filling our mountain streams and hopefully we get some spring rains to top up the lakes across the state.

## Calendar – Coming Events

### August

Wed	2 <sup>nd</sup>	Committee Meeting 7.30pm
Sun	6 <sup>th</sup>	<b>Casting Competition.</b> <i>Brunn Shield Round 4</i> at Southern Pool
Wed	9 <sup>th</sup>	<b>Members Night.</b> Speaker: <i>Jon Clewlow talking on Midge and Mudeye fishing</i>
Sat/Sun	12 <sup>th</sup> /13 <sup>th</sup>	<b>Casting Competition.</b> <i>Australian Championships</i> at Southern Pool
Mon	14 <sup>th</sup>	<b>Fly Tying Course</b> 7.30pm at the clubrooms <i>Leader: Ross Bailey</i>
Thu	17 <sup>th</sup>	<b>Fly Tying.</b> Casual fly tying at the clubrooms 7.30pm
Sat	19 <sup>th</sup>	<b>Casting Competition.</b> <i>Aust. Plug Champs.</i> at Bullengarook Pool
Sun	20 <sup>th</sup>	<b>Newlands Reservoir Trip.</b> Leader: <i>TBA</i>
Mon	21 <sup>st</sup>	<b>Fly Tying Course</b> 7.30pm at the clubrooms <i>Leader: Ross Bailey</i>

Gary Rapley 0408 342 132

Bringing you Australia's Finest Seafood

The CVFFC held a meeting at YVFFC Lilydale on the 22nd July. The following details cover some of the areas discussed:-

- The President discussed the new VFA body. For further information please check the link to VFA (Victorian Fishing Authority) web site. <https://vfa.vic.gov.au> The new Authority replaces the Department of Fisheries and takes over that role.
- Travis Dowling requested comment from the CVFFC regarding the "Proposed Changes to Salmonid Regulations by Fisheries Notice". Based on the responses from clubs and delegates CVFFC informed Fisheries that we agreed with the proposed new regulations.
- Impact of proposed Hydro scheme on the Rubicon River. Reference below:- <http://www.theage.com.au/victoria/can-local-hydro-get-the-green-light-in-victoria-20170407-vg78v.html>

Several members were concerned about the proposed hydro scheme planned for the Rubicon River. At present the CVFFC does not support the Rubicon Hydro Scheme until an Environmental Impact Study has been carried out and made available to our members. ATF and NFA have carried out an onsite assessment with the applicant (only verbal reports provided). CVFFC would appreciate it if interested clubs could do their own research and provide information, for clubs to comment on.

- CVFFC is in the process of issuing appropriate guidelines on the use of Facebook and Instagram posts. CVFFC is also seeking an interested delegate/member to manage Facebook and Instagram.
- DRAFT proposal/suggestions will be provide on fly only waters, single hook or barbless hook waters, catch and release only waters etc. for members to comments and provide feedback.
- MTB proposed \$20 million cover instead of \$10 million. At present all clubs have \$10 million cover. Fisheries (Stronger Fishing Club Defibrillator Program Stronger Fishing Club Defibrillator Program) and Parks Victoria list a minimum of \$20 million as required cover. A motion was put forward that CVFFC adopt the \$20 million cover.
- Wild Trout Conference proposed for 5th November at Mansfield. Save the date.
- CVFFC web site has been running for some time. <http://www.cvffc.org.au/> Any comments or feedback appreciated.
- Next meeting **28th October Saturday AGM Snobs Creek Eildon**. All executive positions will be vacated and positions open for election.

Since my last update, VRFish have been involved in the following items.

- Trout size limits and change of regulations. VRFish prepared a proposal to VFA with comment on the survey results and a high level of support for the recommendations.
- Volunteers to help out at the VRFish Boat Show stand were requested. Doug Braham (YVFFC/CVFFC) and Peter te Hennepe (SFFC/CVFFC) assisted on the stand.
- National Carp Action Plan. The intent by year end is to have approvals in place to release the virus.
- VRFish has been requested by Fisheries Victoria (now the Victorian Fisheries Authority) to provide comment on the continuation of the Fisheries Notices for trout cod and Murray cod. The Fisheries Notices are business as usual with no changes made to existing regulations, which include: A slot limit of 40-50 cm and bag limit of 1 for trout cod in Lake Sambell and Kerferd. A slot limit of 55-75cm and bag limit of 1 in rivers and 2 in impoundments for Murray cod. Removal of the closed season for Murray cod in Eildon. VRFish's submission is consistent with previous submissions made and provides support for most key elements. CVFFC wrote to VRFish in support of the VFA proposal.
- CVFFC requested that discussion on the proposed development of hydro power generation on the Rubicon River be included on the agenda of the next meeting on the 12th August.

Note these are only some of the topics discussed.

All items may not be specifically applicable to fly fishing but were included for general interest. The items which were applicable were forwarded to the SFF secretary for action if required.

A group of about 12 Southern members gathered together at this picturesque reservoir last month to entertain themselves for the day. Well it was good that we could because the fishing was quite tough, only about eight fish caught. Myself, well I blanked not a touch very unusual.

The weather was cold not much wind, just a ripple on the water. There were a few fish sighted moving and I mean a few. Ray Goddard caught a nice one and a half pounder exactly where I instructed Frankie blue suite to fish earlier, amongst the fallen trees.

The wall section of this reservoir is quite deep but most of this impoundment is quite shallow enabling a wade out from most banks to over 200 mts. The water condition was good but a little cloudy, making it tough for sight fishing.

Ross Bailey stayed till just before dark experiencing a midge hatch with a few fish feeding but was unable to snare any more than the two he caught earlier in the day, still a good catch rate. Midge feeders, the fish not our members, are very hard to catch requiring a certain style of fishing coupled with the correct flies and retrieve but can be worth the wait till just before sun set and into the dark with big fish coming in to feed on these tiny insects

Wet flies were the go for the day with plenty of tough flogging and patience required to try and hook up. This reservoir has been fishing very well for some time with past info from fly fisherman outside Southern catching a number of three pounders and up. I feel the low water level pushed the fish into the deeper water.

This water way is worth visiting often a great fishery.

Good turn up by our members it makes the organising worthwhile.

Just another well attended trip from Southern Fly Fishers with 20 members turning up to have a crack at this very beautiful group of about 16 waters.

Brad, an extremely pleasant fly fisherman has, after buying the fishery, done a massive amount of work to bring this venue up to the great standard it is. Accommodation cabins very clean toilets and groomed grass ways around dams to make ex

access easy. He informed me that he is installing a bore pump to take water up to the top dam that will allow a consistent water flow through channels linking the dams all the way to the bottom dam. This will enable fish to spawn, water to be better oxygenated and better quality fish. These dams do have a water flow from an above valley creek with consistent rain and the pump moving water in dry times.

Twenty spectacular members turned up, they just kept coming. With plenty of bank area and dams to fish our members were far from tripping over each other. Rainbows, browns and golden trout were caught but not as many as we had hoped. There were a few large fish dropped unfortunately and only about 25 fish released for the day.

Flies used were mainly wets stripped at different rates. The deeper the better seemed to be the best way to pick up the fish. Some of these dams are quite small being gravel pits that made them quite deep.

Cold, first thing in the morning made it quite difficult to use the dunnies for about an hour till it thawed out. We were all running around holding the front of our pants.

Great day had by all

The big bottom dam holds a number of different species of fish including large yellow belly, trout and a few one metre Cod all of which we had trouble catching.

## *“Charles Bradley”* Flies for Sale

You may have noticed the new fly boxes on top of the fridge in the clubrooms? Fly boxes is a bit of an understatement, you will understand if you have seen them recently. These new display cabinets contain a vast array of flies that the club managed to secure at a preferential rate.

The usual donated flies will also be located in these display cabinets, so will still be able to get yourself a genuine Max Keper fly.

The flies are for sale at a price of \$1.50 each. Please see Steven Clements or Paul Harris for payment on the night.

## Regular Fly Tying Group

The regular fly tying group meets on the **third Thursday** of the month.

The intent is for those who are interested in meeting regularly to tie flies, learn from others, demonstrate a new pattern or simply talk fly tying. Note that the club will not be supplying any materials; it is the responsibility of people attending to bring along all they need, although the clubs vices will be available for use.

For further information please contact **Paul Harris** on **0412 774 123**.

## Accommodation Offers

Little River Cottage is located in Maydena, that is situated on the Tyenna River, 12 kilometres from Mount Field National Park. It offers spectacular mountain scenery and is close to the Styx Forest of Big Trees and the Styx River. The famous Tyenna River is just minutes down the road and is one of the top fly fishing rivers in Tasmania.

For those keen fisherman we can also arrange a guide who will take you to some hidden fishing spots that contain large brown and rainbow trout.

SFF Rate: From \$120 per night (Two people).  
For more information contact Scott Dargan on 0420 909 449.

### *Little River Cottage - Maydena*

## Myrica Cottage at Bellbrae

Myrica Cottage, self-contained with beautiful décor and all amenities, is located in Bellbrae, Victoria 5.5 km from Anglesea. Solar powered, environmentally friendly and accommodating up to five people, it has two bedrooms, a superb lounge and dining area, self-equipped kitchen and bathroom.

With abundant Australian wildlife, a private fly fishery (catch-and-release only) and walks on over 200 acres of natural bushland it is perfect for fly fishermen, birdwatchers, bushwalkers, bike riders, photographers, nature lovers, horse riders (own horses) and international guests. For hire to those who are willing to share with the native flora and fauna by leaving the pristine premises as found, with kangaroos on site and a spectacular wedge-tailed eagle's nest. Tariff \$300 per weekend (Please confirm). For information call Allan Roberts on 0412 560 452.
